Welcome back to a new semester in the Geography department! We hope everyone had an enjoyable and restorative winter break, and we’re excited to see everyone back on campus Monday (and see the dawgs win the National Championship title that same evening)!

As always, the Geography main office is open to answer any questions you may have and provide any guidance you may need throughout the semester. Please see the information below as to who you can contact in the office for your specific needs:

- Sarah Baker, Graduate Program Administrator
- Kajal Patel, Undergraduate Program Administrator/Communications Coordinator
- Ryan Smith, Undergraduate Academic Advisor

ACCOLADES

Ph.D. Student earns honorable mention for dissertation proposal

Congratulations to Ph.D. candidate, Estefania Palacios, for winning the honorable mention Galo Chiriboga dissertation award! This acknowledgment is awarded by the Latin American Center for Rural Development (one of the most popular centers in Latin America) to the best proposal dissertation.

Palacios earned her award for her project entitled “‘Individually, we are a drop. Together, we are a river’: Analysis of the rural women’s participation in community water systems in Ecuador”, where her focus is to contribute to the emerging discussions about the socio-territorial conflicts of water in Ecuador and to develop a better understanding of the ways in which water, power and gender affect the community water management and the daily life of women.

More information about the award can be found here. Congratulations, Estefania!
UNDERGRADUATE STUDENTS

News & Reminders

Fellowship and Internship Opportunities

- **Data Science for Social Good Summer Fellowship**
  The summer fellowship program is a project-based, mentored training program that places fellows in cross-disciplinary teams and pairs them up with experienced full-time data science mentors and project managers to work on a collaborative project with local, national, and international social good organizations for the summer.
  
  **Deadline to Apply: January 28**

- **2022 Into the Fields Summer Internship**
  Student Action with Farmworkers (SAF) places college students with organizations that serve, organize, or advocate for farmworker justice. This 10-week paid program places interns with agencies, aligned with your career interests, that provide direct services to farmworkers across North and South Carolina. Placements include health clinics, legal aid offices, migrant education state programs, and community organizations. SAF can provide students with academic credit if their majors require an internship, and SAF provide paid housing and eligibility for their scholarship if students have immediate family members that have worked in the fields.
  
  **Deadline to Apply: February 7**

For more information on potential internship sites, please see [this PDF](#).

GRADUATE STUDENTS

News & Reminders

- **AAG 2022 Annual Meeting - NYC**
  The conference will feature more than 6,000 presentations, posters, workshops, and field trips by leading scholars, experts, and researchers. Attendees including geographers, GIS specialists, environmental scientists, and other leaders will share and discuss the latest in research and applications in geography, sustainability, and GIScience. If you have already submitted a paper or poster abstract, the deadline to edit your abstracts is Thursday, January 13th.

  Learn more about guidelines for [abstracts](#) and [sessions](#) to help you make the most of your presentation. More information about the conference schedule and program can be found [here](#).

Check out our running list of assistant professorship opportunities and internships [here](#).

FACULTY AND INSTRUCTORS

News & Reminders

- **Spring 2022 syllabus language regarding COVID-19**
  On behalf of the Office of Instruction, please review [this memo](#) regarding COVID-related language for your Spring 2022 syllabi.

- **Syllabus Upload**
  Please upload your syllabi from Fall ’21 on the [UGA Syllabus System](#) before classes start, if you have not done so already. Thank you!
RESEARCH

Geography and student success in STEM fields: Effects of locale on access to work-related experiential activities

Faculty members in the UGA Institute of Higher Education, Karen Webber and Amy Stich, along with a team of collaborators, are working to uncover which experiences beyond the classroom best facilitate the transition and how to extend equal access to those high-impact opportunities across STEM field students. The project is a three-year study funded by the National Science Foundation (NSF).

Their study focuses on engineering and computer science students' access to work-related experiential activities (WREAs) relative to their post-secondary institutions' proximity to major economic and workforce hubs. This research will provide a more comprehensive portrait of WREAs from the multiple perspectives of college students, career officials, employers, and recently-hired alumni affiliated with six diverse universities across urban, rural, and suburban campuses in Georgia. Webber and Stich assembled an external advisory committee and a strong team, including Geography doctoral student Amanda Aragon, for the project, further enlisting Drs. Marguerite Madden (Director of the Geospatial Research Center) and Jerry Shannon (Director of the Community Mapping Lab) to provide additional expertise in geospatial analysis.

The first year of the study was spent establishing contacts and buy-in at participating campuses across Georgia, piloting survey and focus group instruments, observing virtual career fairs, and completing individual interviews with career center directors.

The team also promoted and disseminated preliminary products of their work at three conferences, one of them led by Aragon at the ASPRS Imaging & Geospatial Information Society on "Integrative Geospatial Techniques with Quantitative Surveys and Qualitative Interviews to Identify Impacts of Geographic Locale on Access to Work-Related Experiential Activities." The team is building on the initial data and visualizing the information through their unique geospatial lens. Based on early findings, they are confident that they will have some exciting results to share in the coming years.

More details about the team and their work is available at: ihe.uga.edu/WREA. The Institute of Higher Education Fall 2021 Report can be found here.

GRADUATE STUDENTS

News & Reminders

- **Graduate School Reminder**
  January 21 is the final date to:
  - Apply to graduate for Spring 2022
  - Submit Program of Study forms to the Graduate School
  - Submit applications for Admission to Candidacy to the Graduate School for doctoral students planning to graduate in Spring 2022

- **Professional Development Series - Feedback Needed**
  Register for the workshop to practice your 3-minute research speech [here](#) by January 16!

- **Willson Center Graduate Research Awards**
  The deadline to apply for awards is **January 18**! For a full list of awards and their descriptions, please click [here](#).

Events

- **A First Generation Student's Guide to Grad School**
  Tues., Jan. 18
  5:30-6:30pm
  Tate Student Center, rm. 482
  *Register [here](#)!

- **Environmental Justice: Research and Community Partnerships**
  Wed., Jan. 19
  12-1pm
  Virtual
  *Register [here](#)!

FACULTY AND INSTRUCTORS

News & Reminders

- **Engage & Learn Grant Program**
  The Engage & Learn Grant Program will award a minimum of 10 internal grants this year for staff professional development. Applications are open through **February 28**. More information on the grants and how to apply [here](#).

Events

- **Environmental Justice: Research and Community Partnerships**
  Wed., Jan. 19
  12-1pm
  Virtual

The impact of the COVID-19 pandemic upon employment and inequality in the Mediterranean EU

An early look from a Labour Geography perspective.

RESEARCH

New research on the impact of the COVID-19 pandemic upon employment and inequality in the Mediterranean EU

COVID-19 is a global pandemic but has a particular geography to it, differentially affecting people and places. Recent research, co-led by Professor Andrew Herod in the Geography department, explores the pandemic’s impact upon labor markets in the Mediterranean European Union (EU) countries. The researchers’ analysis is part of a collective work-in-progress monitoring the pandemic’s effects upon workers since early March 2020. First they note that there is a geographical political economy to pandemics. They then scrutinize the current pandemic’s spatiality and impact upon Mediterranean EU workers. Following this, the researchers discuss how workers are responding to the pandemic and how this is remaking the geography of employment. As such, their paper represents a contribution to the ongoing development of the Labour Geography literature. Overall, they stress that workers face a variety of choices in responding to the pandemic, choices which are, of course, shaped by the geographical contexts within which workers find themselves. In deciding whether and how to act, workers are playing proactive roles in shaping COVID-19’s impact upon the geography of employment and emerging labor landscapes.

Herod was joined by post-doctoral researcher Stelios Gialis (University of the Aegean) and PhD student Kostas Gourzis (University of the Aegean). To read their full article, please follow this link.

News & Reminders

Fellowship and Internship Opportunities

- 2022 Housing & Community Development Undergraduate Fellowship
This program, offered by the UGA Center for Housing and Community Research, is designed to enhance the community development capacity in Georgia's communities while providing undergraduate students with supervised, hands-on experience that will enhance their housing and community development knowledge, research, and technical skills. Past projects include a workforce housing survey, development of a database of vacant land, and a survey of neighborhood housing conditions. If you have any questions, please contact Dr. Kim Skobba at kskobba@uga.edu.

Deadline to Apply: January 31

- **2022 Into the Fields Summer Internship**
  Student Action with Farmworkers (SAF) places college students with organizations that serve, organize, or advocate for farmworker justice. This 10-week paid program places interns with agencies, aligned with your career interests, that provide direct services to farmworkers across North and South Carolina. SAF can provide paid housing and eligibility for their scholarship if students have immediate family members that have worked in the fields.
  
  Deadline to Apply: February 7

**News & Reminders**

- **Graduate School Reminder**
  
  January 21 (today) is the final date to: (1) apply to graduate for Spring 2022, (2) submit Program of Study forms to the Graduate School, and (3) submit applications for Admission to Candidacy to the Graduate School for doctoral students planning to graduate in Spring 2022

- **AAG 2022 Goes All Virtual**
  
  If you have registered to present or attend the AAG conference this year that was scheduled to be in-person in New York City, please note that the conference has converted to a virtual event this year. It is still scheduled for Feb. 25-Mar 1.

- **Nominate a Geography Graduate Student Leader**
  
  The Geography Graduate Student Association elections have begun, and we are seeking new leadership! Consider nominating yourself to serve as a GGSA chair for the calendar year (February 2022 to January 2023). Nominations are due by 5pm January 26th!

Teaming for interdisciplinary research pre-seed program: Convergent mountain science

Four UGA Geography faculty have joined to move mountain studies further, with the support of two competitive seed grant programs on campus. The group led by our department’s very own Dr. Fausto Sarmiento includes faculty from Arts and Sciences, Environment + Design, Forestry, Horticulture, Ecology, and Journalism. The TIR program from the Vice President of Research will allow for the preparation of a large grant to create the Institute for Convergent Mountain Science. The GRCG program from the Office of Global Engagement will facilitate the preparation of a large grant for a panoptic study for sustainable and regenerative development of Mt. Chimborazo Mountain Reserve with faculty from the Superior School Polytechnic of Chimborazo (ESPOCH). Just last Friday, the UGA Neotropical Montology Collaboratory hosted their Annual Guest Lecture on the topic "A Holistic View of Chimborazo Natural Reserve, Ecuador" led by researchers from ESPOCH, where the lecturers exposed a panoptic vision of Mount Chimborazo and the protected area created to conserve high Andean ecosystems.

The UGA mountain studies research cluster includes 13 faculty from 5 different colleges, including 4 UGA Geography professors (pictured above, from left to right): Drs. David Leigh, David Porinchu, Gabriel Kooperman, and Fausto Sarmiento.

>> More information on the pre-seed program and project can be found here!

GRADUATE STUDENTS

News & Reminders

• Dissertation Completion Award
  Please send a CV and a 2-page statement explaining your dissertation research, contributions to university community or discipline, and career goals to Dr. Andrew Grundstein and Sarah Baker.
  Deadline to submit: February 4

• Summer Research Grants
  If interested and you meet the criteria, please send the following to Dr. Andrew Grundstein and Sarah Baker: (1) Description of your research, (2) Budget for summer research plan, (3) Curriculum vitae, and (4) Letter of recommendation from your major professor or other faculty member who will supervise your research this summer. (More details of each item requested can be found at this link.)
  Deadline to submit: February 4

• Request for Departmental TA Funding (Fall '22 and/or Spring '23)
  The Graduate Coordinator’s Office would like to gauge the number of students who expect or would like funding for the next academic year. Please fill out this form (even if you’re not wanting funding).
  Deadline to submit: February 11

Running list of assistant professorship opportunities and internships here!

FACULTY AND INSTRUCTORS

News & Reminders

• Undergraduate Awards - Nominations due Feb. 2
  It’s time to start the process for undergraduate awards again! If you know any students who would be perfect for these awards, we encourage you to nominate them here.

• Engage & Learn Grant Program
  The Engage & Learn Grant Program will award a minimum of 10 internal grants this year for staff professional development. Applications are open through February 28.
  More information on the grants and how to apply here.

The Athens Cultural Affairs Commission (ACAC) is seeking assistance of a UGA student or two interested in public history, monuments/memorialization, public memory, and related topics. More information on the volunteer opportunity and how to apply can be found here!

Departmental Events

Lunch & Learn: Thurs., Feb. 3
Advanced 12-12:30pm via Zoom
Features in eLC and How to Use Them here!
